SOMEBODY MADE A HAUL!

A $15,000 Package of Gold Mysteriously Disappears From an Express Office in Minnesota.

BRAINARD, Minn., April 18.—A package containing $15,000 in gold has mysteriously disappeared from the office of the Northern Pacific Express company in this city. Louis Hosman, the night clerk in charge, received from the train arriving at 1:45, yesterday morning, four sacks of specie, two of which contained $15,000 each in gold, and two $2,500 in silver. The money was consigned to the First National bank in this city by the Northern Pacific Railroad company, to be used in paying employes of the road.

Hosman says he carried the specie, with other express packages, on his truck to the door of the express office. He says that he then carried all the specie into the vault and turned the combination. Half an hour later, in checking up, he discovered that one of the bags of gold was missing. He at once notified his superior, which act failed to reveal the missing money. Hosman has been in the employ of the express company for several years and is regarded as honest and faithful.

MAIL CAR ROBBED.

Thieves Secure the Mail Pouch on the Lake Shore and Ride It.

CHICAGO, April 18.—The mail car on the Lake Shore road, which left here at 7,45 last night, was robbed before it had gotten out of the city limits. The thief secured the pouch containing about one hundred pieces of registered mail for Cleveland, Ohio, and was rifling the contents in an empty freight car between Twenty-second and Twenty-third streets when detected by Watchman Dwyer. As Dwyer looked in the car the man jumped out through the door on the opposite side and escaped. He had opened about one dozen registered letters, and succeeded in getting away with their contents.

The postoffice officials were notified and Superintendent Montgomery went down to the car in person and brought the pouch back. He would not express an opinion as to the probable amount of money stolen, nor did he know the name of the postal clerk in charge of the car.

A Cute Swindler.

SIOUX CITY, Ia., April 18.—The Sioux City Savings bank was swindled out of $2,500 on a forged draft a week ago. The forgery was not discovered until yesterday, when the draft was returned, protested by the National Bank of the Republic of New York. The draft purported to be drawn by the National bank of Bristol, Tenn., for $8,000. A man calling himself B. Simpson last Wednesday presented to the cashier a letter of introduction from the Rev. George Knox, pastor of the Presbyterian church of this city. Simpson had ingratiated himself into Mr. Knox's confidence.

The Boomers.

ARKANSAS CITY, April 18.—Four hundred and thirty-seven families arrived here yesterday in wagons and by trains. The railroad trains from the south brought quite a number of Pawnee and Ottoe Indians from the reservation south of this city. SEE LIVES.

Sadie Weybreight Telegraphs Her Own Death—Sequel to a Long Scandal.

Last Tuesday morning O. L. Perry received at the Western Union office a telegram from Peru, Ind., saying that "Sadie Weybreight, a book agent, dropped dead while at the supper table" there.

Sadie, with commendable enterprise, lives to read her own obituary notices, and here hangs a tale of rare interest.

Many people will recall Dr. J. M. Welsheimer, a homeapothist who had an office in the Wilkins block, on Broadway, and is highly connected in the city. He originally came from South Whitley and a good wife and pretty little daughter blessed his home.

One day the doctor met Sadie Weybreight, and, although she came from Quaker stock and had a husband and two children, love was mutual at first sight.

They met clandestinely at first, but time put shame to flight, and the guilty pair took to travel, selling, between caresses and kisses, patent trinkets through the villages and towns of Northern Indiana.

Mrs. Welsheimer followed her husband and endeavored to win him back, but failing to accomplish her righteous purpose, she applied for and was granted a divorce in Whitley county some time ago.

During all this time the doctor and his amour won much notoriety. Mrs. Weybreight had something like $1,000 and this she lavished on the doctor and besides let him sport her gold watch. Tiring of her, the physician fled and the woman followed him here, accusing him of the theft of her watch.

A meeting between them at the Rich hotel was sensational. The woman fainted, the doctor kissed her, and they went on their roving jaunt again.

Some days ago the doctor again disappeared and Mrs. Weybreight came here. She insisted that she and the doctor were married, and under the name of Sadie Welsheimer, brought suit to replevin goods held by the doctor's relatives. Her purpose was not to recover the goods, but to disclose the doctor's hiding place, and failing in this she went to Peru.

There she penned the telegram announcing her own death, and went so far as to inform the relatives of the doctor that her remains would be shipped on to them for burial.

She supposed that the sad tidings would hasten the doctor to her bier, but not so, and now the festive book agent is planning a new way of discovering her fugitive Homeopothist lover.

Mrs. Weybreight is described as prepossing and a lovable creature, and is expected in the city to-morrow.

In the court at Goshen, her Quaker husband is now applying for a divorce, so that the woman's assumption that she has married Dr. Welsheimer is a sham.

MR. R. M. HAYS.

The Bluffton Presbytery Assigns Him to Evangelistic Work.

At the meeting of the Presbytery held this week at Bluffton, Mr. R. M. Hays, the former general secretary of the Young Men's Christian association of this city, was assigned by that body to special evangelical work in this part of the state. Mr. Hays is an earnest and devoted Christian worker and is well fitted for the performance of the duties which the Presbytery have placed upon him.

The mission came to him unsought, but he has accepted and will enter upon its duties at once. The work will call him away from the city much of the time. In the fall, we understand, Mr. Hays will be admitted to the ministry and take charge of a congregation. THE SENTINEL extends to him, in his grand work of saving souls, its earnest wish for his success, and that he will be so, those who know his zeal in evangelistic work cannot doubt, for he is a talented and eloquent pulpit speaker.

PROF. DIEDERICH.

He Aspires to Be a Civil Service Commissioner.

The Indianapolis *Journal*, the Indiana organ of the president has this.

President Harrison has made numerous inquiries in relation to John Diedrich, of Indiana, who is a candidate for a place on the civil service commission. Diedrich is a German writer for the Lutheran press. Prominent German-Americans here say they know him only by reputation, and are surprised that he is a candidate for political honors.

Some enquiry leads to the discovery that the gentleman mentioned for this high honor is Prof. Henry Deiderich, of the Concordia college staff.

During the last campaign he conducted the German corner in the *Gazette*, and has always been an ardent republican.

TAKES THE CAKE!

The Rapid Rate at Which the Republican Administration is Making Changes in the Postoffices.

WASHINGTON, April 18.—During the first three weeks of the administration little was done with the postoffices, owing to the pressure of other matters of greater importance, but for the fourth, fifth and six weeks Mr. Clarkson has broken the record. Four years ago First Assistant Postmaster General Stevenson made changes pretty rapidly, but Mr. Clarkson has distanced all his predecessors.

In the fourth week of his administration of the office of first assistant postmaster general, he appointed 719 republican postmasters and the next week there were 618 changes. Last week, which was the sixth, the record was badly smashed, 923 postmasters having been appointed, making in all for the three weeks, 2,329. There have been nearly 400 appointments so far this week and there are no indications of a lull in the proceedings.

The selection of A. Shill as collector of Baltimore, has been determined upon. The appointment will be made this afternoon.

The president to-day made the following appointments: Edward S. Lacey, of Michigan, to be comptroller of the currency; Timothy Guy Phelps to be collector of customs for the district of San Francisco, California.

Marville W. Cooper, of New York, has been appointed appraiser of merchandise in the district of New York.

Marshall J. Corbitt, of New York, to be assistant appraiser of merchandise in the district of New York.

F. Snowden Hill, of Maryland, to be collector of revenue for the district of Maryland.

Jno. H. Cozzins, of Rhode Island, to be collector of customs for the district of Newport, R. I.

Edward D. Finley, of Kentucky, postoffice inspector, has been removed.

LAPORTE, Ind., April 18.—Wesley Stowe and Mrs. Delia Martin arrested at South Bend, Wednesday by sheriff of Kalamazoo, Mich. Mrs. Martin was the wife of a wealthy farmer of Berrin county, Mich., and after victimizing him of $3,500, skipped with the man Stowe. The charge against them is adultery.

Train Wrecked.

GRAND RAPIDS, Mich., April 18.—The 8:40 Chicago express on the Chicago and West Michigan railroad, was wrecked near Grandville last night. Some one had opened a switch and before Engineer Garney could check its speed, the locomotive was off the track, bumping over ties, leaping an eight foot cattle guard and landing on its side. The engineer and fireman jumped and escaped uninjured. The baggage car, the smoker and locomotive were totally wrecked.

CAPTAIN DOUGAL.

He is Making a Vigorous Fight For the Postoffice.

The action of the Morton club and its select committee is not acquiesced in by the republicans generally.

Capt. A. H. Dougal, who says he has been in correspondence with President Harrison, received no intimation from him that his application should be submitted for decision to a committee, and consequently, before the Morton club took action, his papers were filed at Washington.

"Look at the complexion of the original Morton club committee of four," said the captain. "It consisted of one soldier against three civilians, while in the committee of forty-seven there were but thirteen soldiers."

"Are you circulating a petition to-day?" was asked.

"No," said the captain, "but my friends are and it will have 100 names, simply to add strength to my claims."

"Are these other candidates besides yourself and Governor Gray?" was

WORKING FOR UNION.

Committees From the Northern and Southern Branches of the Presbyterian Church in Session at Atlanta, Ga.

ATLANTA, Ga., April 18.—The committees from the northern and southern Presbyterian churches are holding a secret session here to-day. The northern committee held a meeting last night, and the southern committee met this morning. Subsequently the two committees met in joint session. While delegates declined to talk, it is known that there is important business before them, although the main and immediate question is co-operation between the northern and southern branches of the church in missionary fields.

It is thought that the conference is working for the long wished-for reunion of the divided church. The conference will continue in session to-morrow night. A reception will be tendered the delegates by the Central Presbsterian church here.

A LINEMAN KILLED!

While Taking Down Telegraph Poles at New York.

NEW YORK, April 18.—M. Early, a lineman engaged in running ropes from the poles on Sixth avenue, which are being demolished by the city, was killed this morning and Hugh Reilly, another lineman, was severely injured. ENTIRELY SUBLIME.

The Services at the Cathedral Can be Characterized in This Way.

The services at the Cathedral this morning were in accord with the ritual, and, of course, of great solemnity. The Pontifical Mass and the elegant ceremonies were not only devotional, devotional because everything moved without a hitch, but because reason, faith and piety are nurtured and the soul is satisfied.

The Rt. Rev. Bishop being the celebrant, Very Rev. J. H. Brammer was assistant priest, Rev. J. A. Oechtering and Rev. S. Fitte, deacons of honor; Rev. J. H. Bathe and Rev. J. F. Delaney, deacons of the Mass. Rev. J. F. Lang, master of ceremonies, and Rev. M. J. Byrne, second master of ceremonies.

To-night, at 7:30, the Psalms and Prophecies will be chanted. To-morrow, at 9 o'clock, the mass of the presanctified, the veneration of the cross, and the singing of the Passion, will take place; at 3 o'clock the devotions of the way of the cross, and at 7:30 a sermon on the crucifixion, will constitute the Good Friday services.

In addition to those above named the following were in attendance: Cathedral clergy; the clergy of St. Mary's, St. Paul's, St. Peter's and St. Vincent's orphanage; from outside the city; Revs. J. H. Guendling and I. M. Wilkens, O. S. F., of Lafayette, L. A. Moench, of Plymouth, J. H. Bathe, of Wabash, M. Benzinger, of Summit, J. Lanth, of Academy, F. Veniard, of Besancon, J. O'Leary, of Lima, Ohio, and S. Fitte, professor of philosophy at Notre Dame.

The richness of decoration that devotion, faith and love prompt in adorning the Repository are indeed as worthy of admiration as they are edifying.

THE PRESBYTERY.

The Proceedings of the Bluffton Assembly—A. J. Tayler Again Defeated.

The Presbyterian synod of Northeastern Indiana, representing eleven counties, held its annual assembly at Bluffton this week.

Revs. Dr. D. W. Moffat and J. L. Leeper, J. M. Boggs, and Messrs. R. M. Hays, J. W. Cromwell, Dr. W. T. Ferguson, and C. H. Worden, represented this city.

Rev. T. J. Gibbeny, of Pierceton, presided, and Judge Wilson, of Goshen, and C. H. Worden, of this city, were clerks.

The proceedings were of the usual character, and the reports from the various churches were very encouraging.

Rev. Dr. H. L. VanNuis and Judge Wilson, of Goshen, were named as commissioners to the general Presbyterian assembly at New York in May.

The Rev. Mr. Lucky, a theological student, was licensed to preach and will go to Crown Point.

The judicial case of the Ossian Presbyterian church against A. J. Tayler, of Sheldon, this county, was again brought up and the assembly sustained the church in its expulsion of Mr. Taylor. He at once appealed the case to the state synod. This was the second trial of the case.

THURSDAY, APRIL 18, 1889.

THE Indianapolis Knights of Labor are moving for a Saturday half holiday.

THE beer trust is in imminent danger. A great portion of the population is trying to down it.

ILLINOIS has decided not to vote on the prohibition question, but will keep on with high license.

IT has been eighty-two days since the steamship Danmark was sighted in mid-ocean and still no tidings.

DURING twelve days of this month 22,000 applications for postoffices were filed in the department at Washington.

MR. PARNELL has instituted a suit against the London *Times* for libel, claiming £100,000 damages, and it seems he has a very good case.

THIS is the last week of the prohibition campaign in Massachusetts, and the conflict is growing warm. Senators Hoar and Colquitt are stumping the state for the amendment.

THE sugar trust has practically gone to pieces since the decision of Judge Barrett, of New York. A few other trusts should be dissolved before the good work ceases.

THE people of Lafayette are "talking up" a mighty natural gas blow-out on the Fourth of July. Natural gas is a new thing at that town, and like the boy with a toy they are bound to show it.

THE largest pension yet granted to an Indiana soldier was received by Thomas J. Acre, of Columbia City, this week. It is for total blindness and dates from July, 1862. The amount is $13,949.77.

THE latest political departure in the south is the organization of a republican party in Alabama from which the negro is to be excluded. How will this strike the republicans of the north who love the negro at long range?

EX-PRESIDENT CLEVELAND has declined the appointment as commissioner of the Highbridge park, New York, on the ground that his knowledge of real estate values in that locality is not such as to qualify him for the position.

THE Indiana civil service reformers do not seem shocked at Assistant Postmaster General Clarkson's decapitation of 150 postmasters a day and as many postal clerks. It is not the business of the association to shock at republican acts.

A BILL was passed by the Wisconsin house of representatives compelling all building and loan associations doing business in the state to deposit with the state treasurer securities to the value of $100,000 for the protection of depositors. There is a great deal of wisdom in that measure.

NOW THAT a United States court has decided that "newspapers placed upon the top of a letter box are not mailed," and a thief who carries them away does not tamper with the United State mails, would it not be well for the United States postoffice to make letter boxes with apertures large enough to introduce a newspaper?

IT was reported yesterday that the Standard Oil monopoly had just completed one of the biggest deals on record. For two years the company has quietly been securing property in Ohio, and has now $7,000,000 invested there. The company will abandon the Pennsylvania fields for those in Ohio. The consummation of the scheme means the revolution of the oil business.

MR. WM. H. CALKINS, who was yesterday appointed associate justice of the supreme court of Washington territory, will be recalled as a defeated candidate for governor of Indiana. He has served several terms as a representative in congress of the Thirteenth district, was a resident of LaPorte for many years, but more recently has resided in Indianapolis. He moved to Tacoma several months ago and proposes to make his home there.

INVENTORS have labored under the impression that the words "patent applied for" protected their invention when the manufactured articles were placed on the market before the awarding of the patent. In a case before the United States district court at Detroit last Friday, Judge Brown dispelled that fond delusion. He held that the inventor has no protection under the common law or patent law until the patent is actually issued, and his works can be pirated with impunity until the patent is obtained. The point made was that a patent was for a specified time, running from the date of its issue. Protection afforded before that time would be an improper extension of the statutory life of the patent.

MARION, Ind., has voted to incorporate as a city.

A PECULIAR Easter Sunday custom is still in vogue in some of the northern counties in England. On that day the men parade the streets with the privilege of "lifting" every woman they meet three times from the ground and demanding in payment either a kiss or a sixpence. On Easter Monday the tables are turned, the women being entitled to the chance of recovering their kisses or sixpences, as the case may be.

THE supreme court, Tuesday last, rendered a decision that affects all saloonkeepers outside and within a circumference of two miles of city limits. It is a decision in the case of Frederich Emerich vs. the city of Indianapolis and the court holds that the right to regulate the sale of liquors within that radius outside of the corporate limits empowers the city by ordinance to impose license upon the sale of such liquor for the reason that license is recognized as a means of regulation.

A Drive at Republicans.

[From the Gazette.]

The state treasury of Indiana needs a burglar proof safe. It is said to have on hand almost $10, and somebody might get away with it.

GIVE US BOTH.

A Contradiction in a Bill for the Feeble Minded School.

The Indianapolis *News* says: "The state auditor wants to know 'which is which.' In the deficiency bill the legislature appropriated $39,000 for the expenses of the school for feeble minded children for eight months, but in section 8 of the act reorganizing the institution, $15 a month for the maintenance of each inmate is allowed, the aggregate amount of which would about double the deficiency appropriation. He has asked the attorney general 'which is which.' He doesn't know himself."

KITCHEN ECONOMY.

Some Official Tests of Baking Powders, Showing Their Comparative Strength and Which is Most Economical.

The below tabulated statements are extracts from public tests of baking powders, made to ascertain their relative value in practical use in baking. The powder containing the largest available leavening gas (excluding the alum and phosphate powders) not only produces the finest, most delicious and wholesome food, but is the most economical in use.

United States Government Chemist Professor Edward G. Love, found the comparative strength of the powders named as follows:

Name.	Cubic in gas per oz. Powder.
Royal	127.4
Patapsco (Alum Powder)	125.2
Horsford's (Fresh)	121.6
Horsford's (Not Fresh)	84.35
Charm (Alum Powder)	116.9
Cleveland's	110.9
Sea Foam	107.9
Dr. Price's	102.6

Massachusetts State Analysts found the strength of several baking powders as follows:

Name.	Cu. in gas per oz.
Royal	126.1
Cleveland's	107.7
Congress	81.2
Horsford's	95.1

Prof. C. W. Parsons, N. Y. College of Pharmacy, in tests made for the Grocer's Association of New York, found the strength of six brands as follows:

Name.	Cu. in gas per oz.
Royal	130.05
Cleveland's	119.92
Sea Foam	113.14
Dr. Price's	109.27
Horsford's	102.64
Congress	95.86

Tests by Professor McMurtrie, late Chemist in Chief, U. S. Agricultural Department, Washington, D. C:

Name.	Cub. in gas per oz.
Royal	159.05
Cleveland's	104.10
Dr. Price's	99.85
None Such	77.24
Horsford's Phosphate)	71.00

It will be noticed that the Royal produces from 17 to 40 per cent. more leavening gas than any other cream of tartar powder, and is consequently that much more economical.

The Government Chemist, Prof. Edward G. Love, who made the analysis of baking powders for the New York State Board of Health as well as for the U. S. Government says: "I find the Royal Baking Powder composed of pure and wholesome ingredients. It does not contain either alum or phosphates or other injurious substance."

The Lafayette Commissioners Will Copy After the Fort Wayne Bridges.

The Lafayette *Courier* says:

"The county commissioners returned at 7 o'clock last night on their tour of inspection at the cities of Logansport, Fort Wayne and Peru. They met at the court house this morning, but adjourned without taking any further action with reference to the building of the new Main street bridge furthermore than making a report and the effect of stating their having visited the cities named. They said this morning the Fort Wayne bridge suited them best in its manner of construction and modern style. This bridge is a span of 300 feet and was built at a cost of $99.98 per foot. The span of the river at this place is 180 feet, but the commissioners say that a reduction from the price above can be had where the span is not so large as that at Fort Wayne. The bridges at Logansport and Peru did not meet with favor from the commissioners, inasmuch, that they are not of modern style and are very clumsy in construction and appearance. While the one at Fort Wayne is the costliest of those visited, yet the board think it best to adopt many of the features contained in its construction. It also is provided with a street car passage and the board was much pleased with the location of the same. The passage is on the side and so out of the way from frightening teams that the plan will meet with serious consideration from the commissioners. The contract, however made between the street car company and the city of Fort Wayne provides that no motive power shall be used in crossing the bridge.

An Imperative Neccesity.

What pure air is to an unhealthy locality, what spring cleaning is to the neat housekeeper, so is Hood's Sarsaparilla to everybody, at this season. The body needs to be thoroughly renovated, the blood purified and vitalized, the germs of disease destroyed. Scrofula, salt rheum, and all other blood disorders are cured by Hood's Sarsaparilla, the most popular and successful spring medicine.

Rome City for 1889--Excursion Season.

An elegant new station house, capable of protecting fifteen hundred people from sun or rain. The island has been improved, sleeping rooms overhauled, buildings painted, new restaurant and dance hall erected. All the old buildings have been painted, and with two dance halls, enlarged restaurant, with twenty-five new clinker boats added to the already large fleet there, makes Rome City the most attractive, cleanest and best resort for picnics or excursion parties in Indiana.

The lake is large; nicely wooded banks surround it, clean gravel or sand shores; no black muck or wild grass to prevent the landing of row boats at almost any point desired; while those desiring to view the beautiful waters, without partaking of the pleasure of boat-riding, can do so seated upon the lake's beautiful banks, nicely shaded, thus avoiding the hot rays of the burning sun.

A QUEER CASE.

How Lydia Meyer Squelched Her Illegal Husband.

Mrs. Lydia Meyer alias Lydia Wegmiller appeared in the circuit court last evening, and asked Judge O'Rourke to annul her marriage to Jacob Wegmiller.

Jacob is a Swiss and some years ago came from the land of clocks and freedom. After leaving home his wife in the old country married again. Jacob supposed that that act made him eligible to the hand of Lydia and they were married.

Now she finds, after a pleasant honeymoon, that the marriage ties are illegal, because Jacob was never divorced from his lawful wife, and her illegal marriage could not right his.

A Prize of $100,000

is a good thing to get, and the man who wins it by superior skill, or by an unexpected turn of Fortune's wheel, is to be congratulated. But he who escapes from the clutches of that dread monster, Consumption, and wins back health and happiness, is far more fortunate. The chances of winning $100,000 are small, but every consumptive may be absolutely sure of recovery, if he takes Dr. Pierce's Golden Medical Discovery in time. For all scrofulous diseases (consumption is one of them), it is an unfailing remedy. All druggists.

SECOND POINT

You should read THE CHICAGO DAILY NEWS because *you know the time to read it.* There is a paper published in Australia which is as large as a blanket. This wouldn't suit you. You want a newspaper at once convenient, complete and condensed, and still you don't want to overlook anything of real importance. You don't want your neighbor to say to you, "Did you read so-and-so in to-day's paper? and be obliged to answer, "No, I didn't see that," and then have him ask you, "What paper do you read?" This will never happen to you if you read THE CHICAGO DAILY NEWS.

Remember—Its circulation is 220,000 a day—over a million a week—and it costs by mail 25 cts. a month, four months $1.00,—*one cent a day.*

BAD COMPLEXIONS.

The Secret of Their Cause Fully Explained—Why Ladies are Sallow and Men Pallid—Some Valuable Facts on the Subject.

In passing along the leading streets in almost any city in America to-day, one will meet with but few ladies who have clear complexions. Many persons have tried to account for this sad fact because of the severe climate of America, but such reasoning is wrong. A bad complexion is caused by impure blood, and no lady can be really beautiful and no man ruddy, who has diseased or impure blood.

The best known way of keeping the blood pure is by keeping it circulating. In this way it passes rapidly through the lungs, kidneys and liver, and is constantly purified. But supposing the system is clogged up as is frequently the case, then of course the blood becomes impure. Then far too often men and women take some powerful purgative, pill or other substance, that clears the body quickly, weakens the strength, and leaves the system in worse condition than before. The only sensible way is to take a gentle, pure and natural purgative, moderately but regularly, and the highest known medical authorities of the day agree that the genuine imported Carlsbad Sprudel Salt is infinitely superior to any other natural preparation known to the world. It is gentle, yet stimulating; it is pure, yet powerful. Containing only natural properties, being evaporated from the celebrated Carlsbad Sprudel Spring, it cannot injure the body in the least, and yet it has never failed to renew life, purify the blood and thus clear the complexion. Hundreds of doctors have given it their unqualified endorsements; thousands of people go each year to the Carlsbad Springs, but they can obtain no greater benefit than by taking the Carlsbad Sprudel Salt in its powdered form, such as can be procured at any drug store in the land. When it is considered that the Carlsbad Salt costs, practically, little more than the cheap, questionable and often injurious Salts, purgatives and Bitter Waters that are in the market, one bottle being sufficient for nearly a month, all persons who keep pace with the times and desire only what is best, will see that it is to their interest to use only the Carlsbad. Each bottle is in a light blue paper cartoon and has the signature Eisner & Mendelson Co., sole agents, on every bottle. One bottle mailed upon receipt of one dollar. Dr. Toboldt's lecture and pamphlets mailed free upon application. Eisner & Mendelson Co., 6 Barclay St., New York.

SHE'S A HUMMER!

The above cut represents the HOWARD FURNACE, which obtains by its construction, advantages over all others. It is the most Scientific, Practical and Simple heater yet produced. It has the largest radiating surface, wherein the heat is circulated around and contained in the furnace instead of passing directly into the chimney. This furnace does not burn over one ton of coal a month in the coldest weather and in some instances less. This furnace will also heat by means of hot water, thereby reaching distant rooms where hot air cannot. It is low down and can be set in the lowest cellar and still allow hot air pipes to be taken from the top instead of the side of the casting as in all other furnaces. JOHN PRESSLER, 71 East Columbia street.

LONG LIFE.

There is nothing in the world more generally desired than long life, yet the majority of people put off caring for their health—not because they are really careless, but because we live our lives at such a pace we have not time to give the subject sufficient thought until we receive a reminder in the shape of a severe illness.

Then, too, we are constantly bewildered by the various schools of medicine, and the physicians who represent them, and often blunder in our choice of a doctor.

If people only knew that the very best health-keeper, life-preserver and disease preventer that has yet been discovered, is simmered down into a concentrated and very palatable form in the shape of New Style Pleasant Taste Vinegar Bitters, they would not hesitate a moment to try it.

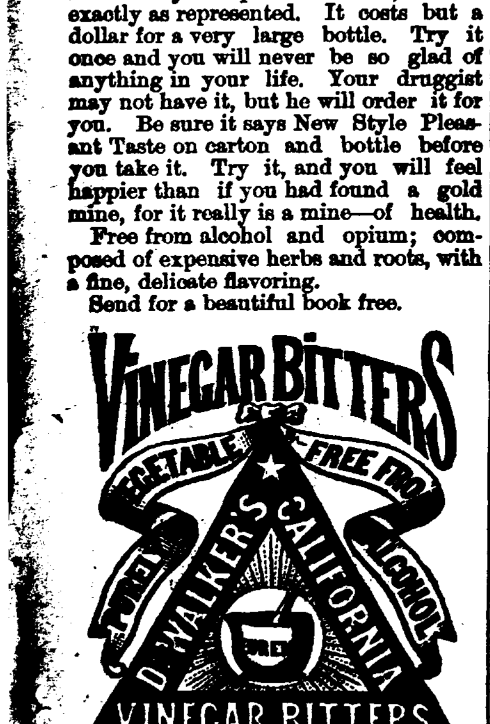

But they do not know. How can they know, when so many not only worthless, but positively injurious drugs are constantly flooding the market under various names and guises, that the New Style Vinegar Bitters is as bad as any of them?

They do not know, of course, unless they have the courage to try the New Style. It straightens out a tangled-up system in a very short while, and those who buy it once buy it always.

Why don't you try it, reader? It is sent out by a responsible house, and is exactly as represented. It costs but a dollar for a very large bottle. Try it once and you will never be so glad of anything in your life. Your druggist may not have it, but he will order it for you. Be sure it says New Style Pleasant Taste on carton and bottle before you take it. Try it, and you will feel happier than if you had found a gold mine, for it really is a mine—of health.

About Carpet Cleaning.

This is the third season since I purchased my carpet cleaning machine. It is with pleasure I look over the work I have done, for there is not one customer who is not more than satisfied and pleased with the work done for him. A prominent hotel man said: "I would not go back to the old way of cleaning carpets if I could get it done for nothing." I can refer with pride to every one we have done any work for. This is the perplexing season for housekeepers, when all work comes at once, and if you have never tried our work, do so this spring, and you will be well satisfied. We take up, clean, and relay your carpets at reasonable price, with as little inconvenience as possible to you. We clean in all kinds of weather, rain or shine, and handle a rag carpet as well as the finest Moquett and Axminster.

In connection with my carpet work, I have a well stocked mattress factory, where we also do over and renovate old mattresses. My carpet and mattress factory is at the corner of Canal and Liberty streets, in the east part of the city, and anybody curious to see our process of cleaning carpets can call and see the machine.

All orders left at any of the carpet stores in the city, or at my store, 33 and 35 Clinton street, will be promptly attended to. Thanking my many customers for past favors, I hope for a continuance of the same, and always try to merit their patronage.

THE ORPHANS' HOME.

Rev. L. E. Payne, Agent and Trustee of the Orphans' Home at Macon, Ga., Writes a Letter Dated February 5th, 1889.

"I have been using Swift's Specific with the children of the orphans' home under my charge with the best results. I began its use between nine and ten years ago, and have seen many remarkable results.

Quite a number of the children had constitutional blood diseases resulting from the sins of the parents, and every one of these children were cured of the horrible taint by the use of S. S. S.

There have also been scores of children in the institution whose systems (they having been mostly without the benefits of parental care) were enervated by dirt eating and other foul practices. Every one of these children have taken S. S. S. and all have been signally benefited by it. All have been cured who have taken enough of it. We have also two inmates of the home, subject to painful recurring attacks of erysipelas. Neither one improved under the treatment usual for the disease. When all other medicines were discarded and they took S. S. S. the cure in each case was quick and permanent, for they have been well for five years and there has been no return of the disease. I could tell much more of the remarkable cures of blood disease by S. S. S., for I have seen it used and know its value.

SOMEBODY MADE A HAUL!

A $15,000 Package of Gold Mysteriously Disappears From an Express Office in Minnesota.

BRAINARD, Minn., April 18.—A package containing $15,000 in gold has mysteriously disappeared from the office of the Northern Pacific Express company in this city. Louis Hosman, the night clerk in charge, received from the train arriving at 1:45, yesterday morning, four sacks of specie, two of which contained $15,000 each in gold, and two $2,500 in silver. The money was consigned to the First National bank in this city by the Northern Pacific Railroad company, to be used in paying employes of the road.

Hosman says he carried the specie, with other express packages, on his truck to the door of the express office. He says that he then carried all the specie into the vault and turned the combination. Half an hour later, in checking up, he discovered that one of the bags of gold was missing. He at once notified his superior, which but failed to reveal the missing money. Hosman has been in the employ of the express company for several years and is regarded as honest and faithful.

MAIL CAR ROBBED.

Thieves Secure the Mail Pouch on the Lake Shore and Rifle It.

CHICAGO, April 18.—The mail car on the Lake Shore road, which left here at 7.45 last night, was robbed before it had gotten out of the city limits. The thief secured the pouch containing about one hundred pieces of registered mail for Cleveland, Ohio, and was rifling the contents in an empty freight car between Twenty-second and Twenty-third streets when detected by Watchman Dwyer. As Dwyer looked in the car the man jumped out through the door on the opposite side and escaped. He had opened about one dozen registered letters, and succeeded in getting away with their contents.

The postoffice officials were notified and Superintendent Montgomery went down to the car in person and brought the pouch back. He would not express an opinion as to the probable amount of money stolen, nor did he know the name of the postal clerk in charge of the car.

A Cute Swindler.

SIOUX CITY, Ia., April 18.—The Sioux City Savings bank was swindled out of $2,500 on a forged draft a week ago. The forgery was not discovered until yesterday, when the draft was returned, protested by the National Bank of the Republic of New York. The draft purported to be drawn by the National bank of Bristol, Tenn., for $3,000. A man calling himself B. Simpson last Wednesday presented to the cashier a letter of introduction from the Rev. George Knox, pastor of the Presbyterian church of this city. Simpson had ingratiated himself into Mr. Knox's confidence.

The Boomers.

ARKANSAS CITY, April 18.—Four hundred and thirty-seven families arrived here yesterday in wagons and by trains. The railroad trains from the south brought quite a number of Pawnee and Ottoe Indians from the reservation south of this city. It seems to have just dawned upon them that the settlement of 200,000 people in the heart of the territory means to them a general breaking up of their tribulations.

Four Months to Live.

Jacob Motterwell, five miles from this city, on the 9th of last December, was yesterday denied a new trial and will be hanged August 16. The sentence is the first one under the Indiana law that directs all executions to take place in the state penitentiary.

Five Drowned.

BAINBRIDGE, Ga., April 18.—At the Alabama land crossing of the Chatahoochee river, two boats, with seven and eight men respectively, were crossing the river, when one of the boats commenced sinking and one of the men jumped to the other boat and capsized both boats. Five men were drowned.

SHE LIVES.

Sadie Weybreight Telegraphs Her Own Death—Sequel to a Long Scandal.

Last Tuesday morning O. L. Perry received at the Western Union office a telegram from Peru, Ind., saying that "Sadie Weybreight, a book agent, dropped dead while at the supper table" there.

Sadie, with commendable enterprise, lives to read her own obituary notices, and here hangs a tale of rare interest.

Many people will recall Dr. J. M. Welsheimer, a homeopathist who had an office in the Wilkins block, on Broadway, and is highly connected in the city. He originally came from South Whitley and a good wife and pretty little daughter blessed his home.

One day the doctor met Sadie Weybreight, and, although she came from Quaker stock and had a husband and two children, love was mutual at first sight.

They met clandestinely at first, but time put shame to flight, and the guilty pair took to travel, selling, between caresses and kisses, patent trinkets through the villages and towns of Northern Indiana.

Mrs. Welsheimer followed her husband and endeavored to win him back, but failing to accomplish her righteous purpose, she applied for and was granted a divorce in Whitley county some time ago.

During all this time the doctor and his amour won much notoriety. Mrs. Weybreight had something like $1,000 and this she lavished on the doctor and besides let him sport her gold watch. Tiring of her, the physician fled and the woman followed him here, accusing him of the theft of her watch.

A meeting between them at the Rich hotel was sensational. The woman fainted, the doctor kissed her, and they went on their roving jaunt again.

Some days ago the doctor again disappeared and Mrs. Weybreight came here. She insisted that she and the doctor were married, and under the name of Sadie Welsheimer brought suit to replevin goods held by the doctor's relatives. Her purpose was not to recover the goods, but to disclose the doctor's hiding place, and failing in this she went to Peru.

There she penned the telegram announcing her own death, and went so far as to inform the relatives of the doctor that her remains would be shipped on to them for burial.

She supposed that the sad tidings would hasten the doctor to her bier, but not so, and now the festive book agent is planning a new way of discovering her fugitive Homeopathist lover.

Mrs. Weybreight is described as prepossing and a lovable creature, and is expected in the city to-morrow.

In the court at Goshen, her Quaker husband is now applying for a divorce, so that the woman's assumption that she has married Dr. Welsheimer is a sham.

MR. R. M. HAYS.

The Bluffton Presbytery Assigns Him to Evangelistic Work.

At the meeting of the Presbytery held this week at Bluffton, Mr. R. M. Hays, the former general secretary of the Young Men's Christian association of this city, was assigned by that body to special evangelical work in this part of the state. Mr. Hays is an earnest and devoted Christian worker and is well fitted for the performance of the duties which the Presbytery have placed upon him.

The mission came to him unsought, but he has accepted and will enter upon its duties at once. The work will call him away from the city much of the time. In the fall, we understand, Mr. Hays will be admitted to the ministry and take charge of a congregation. THE SENTINEL extends to him, in his grand work of saving souls, its earnest wish for his success, and that he will be so, those who know his zeal in evangelistic work cannot doubt, for he is a talented and eloquent pulpit speaker.

PROF. DIEDERICH.

He Aspires to Be a Civil Service Commissioner.

The Indianapolis *Journal*, the Indiana organ of the president has this,

President Harrison has made numerous inquiries in relation to John Diedrich, of Indiana, who is a candidate for a place on the civil service commission. Diedrich is a German writer for the Lutheran press. Prominent German-Americans here say they know him only by reputation, and are surprised that he is a candidate for political honors.

Some enquiry leads to the discovery that the gentleman mentioned for this high honor is Prof. Henry Deiderich, of the Concordia college staff.

During the last campaign he conducted the German corner in the *Gazette*, and has always been an ardent republican.

He concludes that he might as well succeed Hon. A. P. Edgerton as any man, but will not relish the contemptuous reference of the *Journal* to his candidacy.

Mr. James F. Kane returned home last night from a western tour of some [illegible]. He looks as natural [illegible]

TAKES THE CAKE!

The Rapid Rate at Which the Republican Administration is Making Changes in the Postoffices.

WASHINGTON, April 18.—During the first three weeks of the administration little was done with the postoffices, owing to the pressure of other matters of greater importance, but for the fourth, fifth and six weeks Mr. Clarkson has broken the record. Four years ago First Assistant Postmaster General Stevenson made changes pretty rapidly, but Mr. Clarkson has distanced all his predecessors.

In the fourth week of his administration of the office of first assistant postmaster general, he appointed 719 republican postmasters and the next week there were 818 changes. Last week, which was the sixth, the record was badly smashed, 923 postmasters having been appointed, making in all for the three weeks, 2,320. There have been nearly 400 appointments so far this week and there are no indications of a lull in the proceedings.

The selection of A. Shill as collector of Baltimore, has been determined upon. The appointment will be made this afternoon.

The president to-day made the following appointments: Edward S. Lacey, of Michigan, to be comptroller of the currency; Timothy Guy Phelps to be collector of customs for the district of San Francisco, California.

Marville W. Cooper, of New York, has been appointed appraiser of merchandise in the district of New York.

Marshall J. Corbitt, of New York, to be assistant appraiser of merchandise in the district of New York.

F. Snowden Hill, of Maryland, to be collector of revenue for the district of Maryland.

Jno. H. Cozzins, of Rhode Island, to be collector of customs for the district of Newport, R. I.

Edward D. Finley, of Kentucky, postoffice inspector, has been removed.

Train Wrecked.

GRAND RAPIDS, Mich., April 18.—The 8:40 Chicago express on the Chicago and West Michigan railroad, was wrecked near Grandville last night. Some one had opened a switch and before Engineer Garney could check its speed, the locomotive was off the track, bumping over ties, leaping an eight foot cattle guard and landing on its side. The engineer and fireman jumped and escaped uninjured. The baggage car, the smoker and locomotive were totally wrecked.

CAPTAIN DOUGAL.

He is Making a Vigorous Fight for the Postoffice.

The action of the Morton club and its select committee is not acquiesced in by the republicans generally.

Capt. A. H. Dougal, who says he has been in correspondence with President Harrison, received no intimation from him that his application should be submitted for decision to a committee, and consequently, before the Morton club took action, his papers were filed at Washington.

"Look at the complexion of the original Morton club committee of four," said the captain. "It consisted of one soldier against three civilians, while in the committee of forty-seven there were but thirteen soldiers."

"Are you circulating a petition today?" was asked.

"No," said the captain, "but my friends are and it will have 100 names, simply to add strength to my claims."

"Are there other candidates besides yourself and Colonel Higgins?" was asked.

"I understand that Mr. Geo. H. Wilson is a candidate. He was asked into the Morton club arrangement, but refused to go. He, too, will have a strong following."

THE SENTINEL promised a merry war and here it is with [illegible]

TWO INSANE CASES.

Albert Carl and August Heil are so Adjudged.

Albert Carl, who lives at 199 Montgomery street, has not been mentally right for years, but as no harm resulted, he was left at home.

The northern committee held a meeting last night, and the southern committee met this morning. Subsequently the two committees met in joint session. While delegates declined to talk, it is known that there is important business before them, although the main and immediate question is co-operation between the northern and southern branches of the church in missionary fields.

It is thought that the conference is working for the long wished-for reunion of the divided church. The conference will continue in session to-morrow night. A reception will be tendered the delegates by the Central Presbsterian church here.

ENTIRELY SUBLIME.

The Services at the Cathedral Can be Characterized in This Way.

The services at the Cathedral this morning were in accord with the ritual, and, of course, of great solemnity. The Pontifical Mass and the elegant ceremonies were not only devotional, devotional because everything moved without a hitch, but because reason, faith and piety are nurtured and the soul is satisfied.

The Rt. Rev. Bishop being the celebrant, Very Rev. J. H. Brammer was assistant priest, Rev. J. A. Oechtering and Rev. S. Fitte, deacons of honor; Rev. J. H. Bathe and Rev. J. F. Delaney, deacons of the Mass, Rev. J. F. Lang, master of ceremonies, and Rev. M. J. Byrne, second master of ceremonies.

To-night, at 7:30, the Psalms and Prophecies will be chanted. To-morrow, at 9 o'clock, the mass of the presanctified, the veneration of the cross, and the singing of the Passion, will take place; at 3 o'clock the devotions of the way of the cross, and at 7:30 a sermon on the crucifixion, will constitute the Good Friday services.

In addition to those above named the following were in attendance: Cathedral clergy; the clergy of St. Mary's, St. Paul's, St. Peter's and St. Vincent's orphanage; from outside the city; Revs. J. H. Guendling and I. M. Wilkens, O. S. F., of Lafayette, L. A. Moench, of Plymouth, J. H. Bathe, of Wabash, M. Benzinger, of Summit, J. Lanth, of Academy, F. Veniard, of Besancon, J. O'Leary, of Lima, Ohio, and S. Fitte, professor of philosophy at Notre Dame.

The richness of decoration that devotion, faith, and love prompt in adorning the Repository are indeed as worthy of admiration as they are edifying.

The Rev. Mr. Lucky, a theological student, was licensed to preach and will go to Crown Point.

The judicial case of the Ossian Presbyterian church against A. J. Taylor, of Sheldon, this county, was again brought up and the assembly sustained the church in its expulsion of Mr. Taylor. He at once appealed the case to the state synod. This was the second trial of the case.

THURSDAY, APRIL 18, 1889.

THE Indianapolis Knights of Labor are moving for a Saturday half holiday.

THE beer trust is in imminent danger. A great portion of the population is trying to down it.

ILLINOIS has decided not to vote on the prohibition question, but will keep on with high license.

IT has been eighty-two days since the steamship Danmark was sighted in midocean and still no tidings.

DURING twelve days of this month 22,000 applications for postoffices were filed in the department at Washington.

MR. PARNELL has instituted a suit against the London *Times* for libel, claiming £100,000 damages, and it seems he has a very good case.

THIS is the last week of the prohibition campaign in Massachusetts, and the conflict is growing warm. Senators Hoar and Colquitt are stumping the state for the amendment.

THE sugar trust has practically gone to pieces since the decision of Judge Barrett, of New York. A few other trusts should be dissolved before the good work ceases.

THE people of Lafayette are "talking up" a mighty natural gas blow-out on the Fourth of July. Natural gas is a new thing at that town, and like the boy with a toy they are bound to show it.

THE largest pension yet granted to an Indiana soldier was received by Thomas J. Acre, of Columbia City, this week. It is for total blindness and dates from July, 1862. The amount is $13,949.77.

THE latest political departure in the south is the organization of a republican party in Alabama from which the negro is to be excluded. How will this strike the republicans of the north who love the negro at long range?

EX-PRESIDENT CLEVELAND has declined the appointment as commissioner of the Highbridge park, New York, on the ground that his knowledge of real estate values in that locality is not such as to qualify him for the position.

THE Indiana civil service reformers do not seem shocked at Assistant Postmaster General Clarkson's decapitation of 150 postmasters a day and as many postal clerks. It is not the business of the association to shock at republican acts.

A BILL was passed by the Wisconsin house of representatives compelling all building and loan associations doing business in the state to deposit with the state treasurer securities to the value of $100,000 for the protection of depositors. There is a great deal of wisdom in that measure.

NOW THAT a United States court has decided that "newspapers placed upon the top of a letter box are not mailed," and a thief who carries them away does not tamper with the United State mails, would it not be well for the United States postoffice to make letter boxes with apertures large enough to introduce a newspaper?

IT was reported yesterday that the Standard Oil monopoly had just completed one of the biggest deals on record. For two years the company has quietly been securing property in Ohio, and has now $7,000,000 invested there. The company will abandon the Pennsylvania fields for those in Ohio. The consummation of the scheme means the revolution of the oil business.

MR. WM. H. CALKINS, who was yesterday appointed associate justice of the supreme court of Washington territory, will be recalled as a defeated candidate for governor of Indiana. He has served several terms as a representative in congress of the Thirteenth district, was a resident of LaPorte for many years, but more recently has resided in Indianapolis. He moved to Tacoma several months ago and proposes to make his home there.

INVENTORS have labored under the impression that the words "patent applied for" protected their invention when the manufactured articles were placed on the market before the awarding of the patent. In a case before the United States district court at Detroit last Friday, Judge Brown dispelled that fond delusion. He held that the inventor has no protection under the common law or patent law until the patent is actually issued, and his works can be pirated with impunity until the patent is obtained. The point made was that a patent was for a specified time, running from the date of its issue. Protection afforded before that time would be an improper extension of the statutory life of the patent.

MARION, Ind., has voted to incorporate as a city.

A PECULIAR Easter Sunday custom is still in vogue in some of the northern counties in England. On that day the men parade the streets with the privilege of "lifting" every woman they meet three times from the ground and demanding in payment either a kiss or a sixpence. On Easter Monday the tables are turned, the women being entitled to the chance of recovering their kisses or sixpences, as the case may be.

THE supreme court, Tuesday last, rendered a decision that affects all saloonkeepers outside and within a circumference of two miles of city limits. It is a decision in the case of Frederich Emerich vs. the city of Indianapolis and the court holds that the right to regulate the sale of liquors within that radius outside of the corporate limits empowers the city by ordinance to impose license upon the sale of such liquor for the reason that license is recognized as a means of regulation.

A Drive at Republicans.

[From the Gazette.]

The state treasury of Indiana needs a burglar proof safe. It is said to have on hand almost $10, and somebody might get away with it.

GIVE US BOTH.

A Contradiction in a Bill for the Feeble Minded School.

The Indianapolis *News* says: "The state auditor wants to know 'which is which.' In the deficiency bill the legislature appropriated $89,000 for the expenses of the school for feeble minded children for eight months, but in section 8 of the act reorganizing the institution, $15 a month for the maintenance of each inmate is allowed, the aggregate amount of which would about double the deficiency appropriation. He has asked the attorney general 'which is which.' He doesn't know himself."

KITCHEN ECONOMY.

Some Official Tests of Baking Powders, Showing Their Comparative Strength and Which is Most Economical.

The below tabulated statements are extracts from public tests of baking powders, made to ascertain their relative value in practical use in baking. The powder containing the largest available leavening gas (excluding the alum and phosphate powders) not only produces the finest, most delicious and wholesome food, but is the most economical in use.

United States Government Chemist Professor Edward G. Love, found the comparative strength of the powders named as follows:

Name.	Cubic in gas per oz. Powder.
Royal	127.4
Patapsco (Alum Powder)	125.2
Horsford's (Fresh)	121.6
Horsford's (Not Fresh)	84.35
Charm (Alum Powder)	116.9
Cleveland's	110.9
Sea Foam	107.9
Dr. Price's	102.6

Massachusetts State Analysts found the strength of several baking powders as follows:

Name.	Cu. in gas per oz.
Royal	126.1
Cleveland's	107.7
Congress	81.3
Horsford's	95.1

Prof. C. W. Parsons, N. Y. College of Pharmacy, in tests made for the Grocer's Association of New York, found the strength of six brands as follows:

Name.	Cu. in gas per oz.
Royal	136.05
Cleveland's	119.09
Sea Foam	113.14
Dr. Price's	109.27
Horsford's	102.04
Congress	95.80

Tests by Professor McMurtrie, late Chemist in Chief, U. S. Agricultural Department, Washington, D. C:

Name.	Cub. in gas per oz.
Royal	119.06
Cleveland's	104.10
Dr. Price's	99.35
None Such	77.24
Horsford's Phosphate)	71.00

It will be noticed that the Royal produces from 17 to 40 per cent. more leavening gas than any other cream of tartar powder, and is consequently that much more economical.

The Government Chemist, Prof. Edward G. Love, who made the analysis of baking powders for the New York State Board of Health as well as for the U. S. Government says: "I find the Royal Baking Powder composed of pure and wholesome ingredients. It does not contain either alum or phosphates or other injurious substance."

THEY LIKE 'EM.

The Lafayette Commissioners Will Copy After the Fort Wayne Bridges.

The Lafayette *Courier* says:

"The county commissioners returned at 7 o'clock last night on their tour of inspection at the cities of Logansport, Fort Wayne and Peru. They met at the court house this morning, but adjourned without taking any further action with reference to the building of the new Main street bridge furthermore than making a report and the effect of stating their having visited the cities named. They said this morning the Fort Wayne bridge suited them best in its manner of construction and modern style. This bridge is a span of 300 feet and was built at a cost of $99.98 per foot. The span of the river at this place is 180 feet, but the commissioners say that a reduction from the price above can be had where the span is not so large as that at Fort Wayne. The bridges at Logansport and Peru did not meet with favor from the commissioners, inasmuch, that they are not of modern style and are very clumsy in construction and appearance. While the one at Fort Wayne is the costliest of those visited, yet the board think it best to adopt many of the features contained in its construction. It also is provided with a street car passage and the board was much pleased with the location of the same. The passage is on the side and so out of the way from frightening teams that the plan will meet with serious consideration from the commissioners. The contract, however made between the street car company and the city of Fort Wayne provides that no motive power shall be used in crossing the bridge.

An Imperative Necessity.

What pure air is to an unhealthy locality, what spring cleaning is to the neat housekeeper, so is Hood's Sarsaparilla to everybody, at this season. The body needs to be thoroughly renovated, the blood purified and vitalized, the germs of disease destroyed. Scrofula, salt rheum, and all other blood disorders are cured by Hood's Sarsaparilla, the most popular and successful spring medicine.

Rome City for 1889—Excursion Season.

An elegant new station house, capable of protecting fifteen hundred people from sun or rain. The island has been improved, sleeping rooms overhauled, buildings painted, new restaurant and dance hall erected. All the old buildings have been painted, and with two dance halls, enlarged restaurant, with twenty-five new clinker boats added to the already large fleet there, makes Rome City the most attractive, cleanest and best resort for picnics or excursion parties in Indiana.

The lake is large; nicely wooded banks surround it, clean gravel or sand shores; no black muck or wild grass to prevent the landing of row boats at almost any point desired; while those desiring to view the beautiful waters, without partaking of the pleasure of boat-riding, can do so seated upon the lake's beautiful banks, nicely shaded, thus avoiding the hot rays of the burning sun.

A QUEER CASE.

How Lydia Meyer Squelched Her Illegal Husband.

Mrs. Lydia Meyer alias Lydia Wegmiller appeared in the circuit court last evening, and asked Judge O'Rourke to annul her marriage to Jacob Wegmiller.

Jacob is a Swiss and some years ago came from the land of clocks and freedom. After leaving home his wife in the old country married again. Jacob supposed that that act made him eligible to the hand of Lydia and they were married.

Now she finds, after a pleasant honeymoon, that the marriage ties are illegal, because Jacob was never divorced from his lawful wife, and her illegal marriage could not right his.

A Prize of $100,000

is a good thing to get, and the man who wins it by superior skill, or by an unexpected turn of Fortune's wheel, is to be congratulated. But he who escapes from the clutches of that dread monster, Consumption, and wins back health and happiness, is far more fortunate. The chances of winning $100,000 are small, but every consumptive may be absolutely sure of recovery, if he takes Dr. Pierce's Golden Medical Discovery in time. For all scrofulous diseases (consumption is one of them), it is an unfailing remedy. All druggists.

SECOND POINT
You should read THE CHICAGO DAILY NEWS because you know the time to read it. There is a paper published in Australia which is as large as a blanket. This wouldn't suit you. You want a newspaper at once convenient, complete and condensed, and still you don't want to overlook anything of real importance. You don't want your neighbor to say to you, "Did you read so-and-so in to-day's paper? and be obliged to answer, "No, I didn't see that," and then have him ask you, "What paper do you read?" This will never happen to you if you read THE CHICAGO DAILY NEWS.
Remember—Its circulation is 220,000 a day—over a million a week—and it costs by mail 25 cts. a month, four months $1.00,—one cent a day.

BAD COMPLEXIONS.

The Secret of Their Cause Fully Explained—Why Ladies Are Sallow and Men Pallid—Some Valuable Facts on the Subject.

In passing along the leading streets in almost any city in America to-day, one will meet with but few ladies who have clear complexions. Many persons have tried to account for this sad fact because of the severe climate of America, but such reasoning is wrong. A bad complexion is caused by impure blood, and no lady can be really beautiful and no man ruddy, who has diseased or impure blood.

The best known way of keeping the blood pure is by keeping it circulating. In this way it passes rapidly through the lungs, kidneys and liver, and is constantly purified. But supposing the system is clogged up as is frequently the case, then of course the blood becomes impure. Then far too often men and women take some powerful purgative, pill or other substance, that clears the body quickly, weakens the strength, and leaves the system in worse condition than before. The only sensible way is to take a gentle, pure and natural purgative, moderately but regularly, and the highest known medical authorities of the day agree that the genuine imported Carlsbad Sprudel Salt is infinitely superior to any other natural preparation known to the world. It is gentle, yet stimulating; it is pure, yet powerful. Containing only natural properities, being evaporated from the celebrated Carlsbad Sprudel Spring, it cannot injure the body in the least, and yet it has never failed to renew life, purify the blood and thus clear the complexion. Hundreds of doctors have given it their unqualified endorsements; thousands of people go each year to the Carlsbad Springs, but they can obtain no greater benefit than by taking the Carlsbad Sprudel Salt in its powdered form, such as can be procured at any drug store in the land. When it is considered that the Carlsbad Salt costs, practically, little more than the cheap, questionable and often injurious Salts, purgatives and Bitter Waters that are in the market, one bottle being sufficient for nearly a month, all persons who keep pace with the times and desire only what is best, will see that it is to their interest to use only the Carlsbad. Each bottle is in a light blue paper cartoon and has the signature Eisner & Mendelson Co., sole agents, on every bottle. One bottle mailed upon receipt of one dollar. Dr. Toboldt's lecture and pamphlets mailed free upon application. Eisner & Mendelson Co., 6 Barclay St., New York.

SHE'S A HUMMER!

The above cut represents the HOWARD FURNACE, which obtains for its construction, advantages over all others. It is the most Scientific, Practical and Simple heater yet produced. It has the largest radiating surface, wherein the heat is circulated around and contained in the furnace instead of passing directly into the chimney. This furnace does not burn over one ton of coal a month in the coldest weather and in some instances less. This furnace will also heat by means of hot water, thereby reaching distant rooms where hot air cannot. It is low down and can be set in the lowest cellar and still allow hot air pipes to be taken from the top instead of the side of the casting as in all other furnaces.

LONG LIFE.

There is nothing in the world more generally desired than long life, yet the majority of people put off caring for their health—not because they are really careless, but because we live our lives at such a pace we have not time to give the subject sufficient thought until we receive a reminder in the shape of a severe illness.

Then, too, we are constantly bewildered by the various schools of medicine, and the physicians who represent them, and often blunder in our choice of a doctor.

If people only knew that the very best health-keeper, life-preserver and disease preventer that has yet been discovered, is simmered down into a concentrated and very palatable form in the shape of New Style Pleasant Taste Vinegar Bitters, they would not hesitate a moment to try it.

But they do not know. How can they know, when so many not only worthless, but positively injurious drugs are constantly flooding the market under various names and guises, that the New Style Vinegar Bitters is as bad as any of them?

They do not know, of course, unless they have the courage to try the New Style. It straightens out a tangled-up system in a very short while, and those who buy it once buy it always.

Why don't you try it, reader? It is sent out by a responsible house, and is exactly as represented. It costs but a dollar for a very large bottle. Try it once and you will never be so glad of anything in your life. Your druggist may not have it, but he will order it for you. Be sure it says New Style Pleasant Taste on carton and bottle before you take it. Try it, and you will feel happier than if you had found a gold mine, for it really is a mine—of health.

Free from alcohol and opium; composed of expensive herbs and roots, with a fine, delicate flavoring.

ONE PAGE OF LIFE

Taken From the Busy Everyday History of Those Who are the World's Noblemen.

The Pittsburg pay car went west this morning.

The electric light works will pay their employes Saturday.

Passenger Agent Thompson has returned from Toledo.

Captain Thomas Toomey has resumed his duties at the Bass works.

M. J. Vizzard has taken a position in the Pittsburg blacksmith shops.

W. S. Morris, master mechanic of the Wabash, was at Andrews yesterday.

C. M. Graydon, traveling auditor of the Nickel Plate, was in the city yesterday.

John W. Knapp, agent of the Wabash road at Huntington, was in the city yesterday.

General Foreman McClure, of the Andrews round house, was in the city last evening.

Mr. Joseph Schlatter, of the electric light works, will shortly wed a West Berry street maiden.

Fred Nagel, the store-keeper of the Wabash shops, has been in the service of the company thirty years.

A number of railroad and shop employes will take a day off to-morrow on account of its being Good Friday.

Joseph Rounder, Clarence Martin and Charles Frabaugh, of the Pittsburg blacksmith shops, are out fishing today.

Fred W. Myers, jr., of the Bass works, is expecting his mother and sister from Germany. They will make this their home.

Charley Taylor and Herman Regel, of the Bass works, were off duty to-day and it is supposed they have gone out fishing.

The Jenney Electric Light company sent a big consignment of meters of the alternating system to New York city on Tuesday.

A number of the clerks in Superintendent Law's office will be promoted when Postmaster Higgins takes his new position.

George F. Brigham, formerly traveling agent of the Nickel Plate, has been appointed station agent at Kansas City, Missouri.

Valentine Rochell, of the Olds wheel works, is suffering from catarrh in the hand instead of the head, as the types made us say yesterday.

Several horses were injured at the Decatur depot Tuesday by breaking out of a car in which they were being taken from Decatur to this city.

Patrick Malone, fireman on one of the Pittsburg switch engines, with his partner, were out riding last evening. They had their best girls with them.

Philadelphia papers state that the Pennsylvania Railroad company will declare the regular semi-annual dividend of 2½ per cent., and will not offer any stock allotment.

James Trythall, of the Pittsburg blacksmith shops, will leave Saturday for Arcanum, Ohio, on a few days' visit among friends. He will be accompanied by Mrs. Trythall.

Will Noble, clerk at the Bass works, was absent from his desk this morning up to 9 o'clock, when our reporter made his round. The boys told us he had gone to Oklahoma.

Thomas Duncan, the electrician at the Jenney Electric Light company, has resigned to accept a position at Lynn, Mass., with the Thomas-Huston Electric Light company.

One of the appointments that Postmaster Higgins will have to make will be mail agent at the south depot. There are a number who have their eye on it, for it is a good position.

Ten spoke turners at the Olds wheel works were laid off last night for the balance of the week. The spokes when turned are placed in the dry houses, which have become full.

The railroad earning for the first week in April show an increase of 9½ per cent. over the corresponding week of 1888. The second week is not likely to make so favorable an exhibit.

Chief Engineer Spencer and Chief Bridge Inspector Rood, of the Pennsylvania, passed through the city to-day on their semi-annual inspection tour. They go over the entire Pittsburg line.

The friends of Mr. Ed Murphy will be pleased to know that the gentleman is rapidly improving, and in a short time will be able to resume his position as roadmaster on the Nickel Plate road.

Judge Gresham has ordered the Wabash railroad to be sold at the postoffice building in Chicago on the 15th day of May next. The mortgage under which it is to be sold amounts to $28,000,000.

Assistant General Manager Childs and Chief Engineer Kimball, of the Lake Shore road, were in the city last night in their special car. The train left the city this morning. They are making a trip over the road.

John Wingate, the watchman at the Pittsburg car shops, is one of the valuable men of the works. The boys, however, love to play a joke on him once in a while, and he was the victim of one this morning when he went to catch some men who were smoking in the yards.

J. F. Piper, the veteran machinist at the Wabash shops, will have one of the ... gardens in the ci...

summer on his West Jefferson street residence lot. He takes a delight in working at his garden in the early evening hours after the close of the labors of the day.

J. C. Spencer, consulting engineer of the Pittsburg, Fort Wayne and Chicago railway, arrived in the city to-day from the east on a special train and will make his semi-annual inspection of the Fort Wayne shops. The purpose of Mr. Spencer's trip is to note the amount and quality of improvements made on the property by the Pennsylvania company lessees.

Geo. Kelley, of Altoona, Pa., an employe of the Pennsylvania company's shops at that place, was in the city today the guest of Geo. H. Judy, foreman of the Pittsburg blacksmith shops. He is a pleasant gentleman. J. H. Sloan, clerk of the machine shops, is a personal friend of Mr. Kelley, and this morning they talked over their former pleasant days at Altoona.

Mr. Ed. Deegan, the veteran blacksmith of the Wabash shops, has gone into the cattle business, so the boys say. The other day, while leading a vicious heifer, he narrowly escaped serious injury. He was knocked down in the mud and tramped upon by the brute, which attempted to gore him to death, but he managed to creep under a culvert, where he lay until assistance arrived.

The Grand Rapids road are making great preparations for their northern summer resort travel this year. The final arrangements for an all-the-year-around line of steamers, between Muskegon and Milwaukee, up north, have just been completed. The boats will run in connection with the Grand Rapids and Indiana railroad, a contract having been made with the company for one year, with the option of ten years. The boats will run tri-weekly and if the business warrants it the trip will be increased to once a day.

About Carpet Cleaning.

This is the third season since I purchased my carpet cleaning machine. It is with pleasure I look over the work I have done, for there is not one customer who is not more than satisfied and pleased with the work done for him. A prominent hotel man said: "I would not go back to the old way of cleaning carpets if I could get it done for nothing." I can refer with pride to every one we have done any work for. This is the perplexing season for housekeepers, when all work comes at once, and if you have never tried our work, do so this spring, and you will be well satisfied. We take up, clean, and relay your carpets at reasonable price, with as little inconvenience as possible to you. We clean in all kinds of weather, rain or shine, and handle a rag carpet as well as the finest Moquett and Axminster.

In connection with my carpet work, I have a well stocked mattress factory, where we also do over and renovate old mattresses. My carpet and mattress factory is at the corner of Canal and Liberty streets, in the east part of the city, and anybody curious to see our process of cleaning carpets can call and see the machine.

All orders left at any of the carpet stores in the city, or at my store, 33 and 35 Clinton street, will be promptly attended to. Thanking my many customers for past favors, I hope for a continuance of the same, and always try to merit their patronage.

PAUL E. WOLF,

The Jewish festival of the Passover, which is being celebrated by the Hebrews this week, was instituted by the law-giver, Moses, in commemoration of the Israelites remaining unharmed on the night of the destruction of the first born, in Egypt, immediately preceding the exodus from that country in old Biblical times. The first two and the last two days of the eight are holy days, the four intermediate days not being specially observed.

THE ORPHANS' HOME.

Rev. L. B. Payne, Agent and Trustee of the Orphans' Home at Macon, Ga., Writes a Letter Dated February 5th, 1889.

"I have been using Swift's Specific with the children of the orphans' home under my charge with the best results. I began its use between nine and ten years ago, and have seen many remarkable results.

Quite a number of the children had constitutional blood diseases resulting from the sins of the parents, and every one of these children were cured of the horrible taint by the use of S. S. S.

There have also been scores of children in the institution whose systems (they having been mostly without the benefits of parental care) were enervated by dirt eating and other foul practices. Every one of these children have taken S. S. S. and all have been signally benefited by it. All have been cured who have taken enough of it. We have also two inmates of the home, subject to painful recurring attacks of erysipelas. Neither one improved under the treatment usual for the disease. When all other medicines were discarded and they took S. S. S. the cure in each case was quick and permanent, for they have been well for five years and there has been no return of the disease. I could tell much more of the remarkable cures of blood disease by S. S. S., for I have seen it used and know its value.
